If you live outside of Japan or far from the share house, we provide an online viewing so that you can take a look at inside of the house and get a feel of the house's atmosphere. This is conducted to prevent any misunderstanding between us after move-in, so please do not hesitate to ask any questions and share your concerns during the viewing! Also, you might have a chance to talk with the other tenants at the viewing if they are home.

Q: What is a tenant screening like?

A: We're sorry that we cannot tell you the details of the screening process. It is made to our own screening standards.
